

TeamWherx™ Vault

Increased security for your sensitive data

TeamWherx™ Vault gives organizations all of the same core features of our standard solution but with extra measures in place to further enhance data security.

Use TeamWherx™ Vault to optimize your team's productivity, enhance communication, and improve customer service, all from an application that does even more to protect your valuable information. Plus, receive email alerts and schedule reports with access after an authenticated login.

- Hosted in the Microsoft Azure cloud with Azure Advanced Data Security
- Data encryption at rest and in transit
- HIPAA compliant to protect sensitive personal information

- Ongoing TeamWherx™ staff training to ensure compliance
- Regular security scans and penetration tests
- Proactive 24/7 system monitoring
- Backed by local and geo-redundant databases for disaster recovery

TeamWherx™ Features

- Wireless Forms
- Mobile Timekeeping
- Job Dispatching
- Phone and Tablet GPS Tracking
- Vehicle and Asset Tracking

Benefits

- Help prevent your organization from suffering costly data breaches with advanced security protection.
- Save time and money by getting encrypted information from the field nearly instantly.
- Enhance workforce communication via highly secure messaging with your employees.
