How Paper-Based Processes Cost Government Organizations

According to FedScoop, paper processes cost the federal government \$38.7 billion per year.*

Paper processes hurt government organizations by:

Taking up too much time to complete.

Being wasteful and posing risks to environmental initiatives.

Costing too much in paper & lost productivity.

Lacking security over more sensitive information.

Containing errors/gaps from handwritten documentation.

Risking potential of lost or misfiled documents.

Discover how TeamWherx can help your organization streamline paper processes and save more money via digital transformation:
